

## THE GAZETTE.

TUESDAY EVENING, JUNE 25.

**CEOPATRA'S NEEDLE.**—An Anglo-Egyptian "needle" for the transport of the prostrate "Needle" from Alexandria and erect it on the "Needle" monument, as follows:

In 1852 a similar proposal was made by the promoters of the Sydenham Palace, and the writer, (then living in Alexandria) took some trouble to ascertain its condition and the practicability of its removal. At that time it was expected and easily examined. It was found that the angles of the obelisk were much clipped, the hieroglyphics on one square almost entirely obliterated, and it was considered not worth the labor and cost of transportation. It has since been covered up by the fortifications.

The only way to remove it would be that adopted by the French in the case of the Lazzaretto (now in the Place de la Concorde)—namely, by removing part of the wall of the fortifications and digging a canal to float it out to sea, and then to build around it as it lies, and thus to have the obelisk in its original position. The cost of this, unfortunately, is enormous, and ships cannot approach within a quarter of a mile of its site, so that the transport and shipment of the needle on board a vessel constructed with an opening to receive and a platform to carry it (as at the time proposed) would be a matter of extreme difficulty.

On the whole, I continue of opinion that it is not worth the trouble in its present state, and I doubt if it is capable of restoration.

**OFFICE ALEXANDRIA WATER CO.**  
May 18th, 1872.  
The unprecedented early commencement of a general and severe drought, has excited the apprehension of a short supply of water, and calls for preventive measures on the part of its officers to provide against all unnecessary waste by consumers.

It is the earnest request of the President and Directors to heads of families that no unnecessary waste shall be permitted, and that servants and children shall shut off hydrants as soon as possible when used.

Special attention is called to the use of wash-pans and bath-tubs, both fruitful sources of waste. The rules and regulations of the Company, under its charter, provide fines and penalties for any and all unnecessary waste, and it becomes the imperative duty of the officers, especially under the condition of the present drought, to enforce these wholesome regulations upon all offenders.

A deficiency of this indispensable article to housekeepers induces us to hope that we shall be sustained in our efforts to prevent all waste, while furnishing all parties with a necessary supply for domestic purposes.

My friend  
R. H. MILLER, President.
